

# Grand Programme Fédérateur Vaccinologie

## GPF VACCINOLOGY DAY

30<sup>TH</sup> JUNE 2017

AUDITORIUM FRANCOIS JACOB

### PRESENTATIONS OF THE GPF VACCINOLOGY-FUNDED PROJECTS

#### 8h45-9h00

- Opening: **Christian Bréchet**
- Introduction and welcome: **Christiane Gerke**

#### 9h00-10h30 Chairs: **Christiane Gerke** and **Armelle Phalipon**

- 9h00: **Rogério Amino**: *A genome-wide screening to identify CD8+ cell dependent protective antigens*
- 9h30: **Gérard Eberl**: *The intestinal pro-inflammatory symbiont SFB as a carrier for recombinant DNA vaccines*
- 10h00: **Chetan Chitnis** and **Rogério Amino**: *Development of a multi-stage, multi-antigen vaccine (MultiMalVax) for Plasmodium falciparum malaria*

#### 10h30-11h Coffee Break

#### 11h00-12h30 Chairs: **Claude Leclerc** and **Frédéric Tangy**

- 11h00: **Laurence Mulard**: *Proof of concept for a bivalent synthetic carbohydrate-protein conjugate vaccine candidate against bacillary dysentery: one step forward to a broad coverage vaccine against Shigella flexneri infections*
- 11h30: **Christian Demeure**: *Towards pre-clinical development of a plague vaccine*
- 12h00: **Mathieu Mateo (Sylvain Baize)**: *Evaluation of the immunogenicity and efficiency of a bivalent vaccine against measles and Lassa virus in non-human primates*

#### 12h30-13h Apéritif
