INVITED SPEAKERS:
Paul COTTER - Teagasc Food Research Centre, Ireland
Delphine DESTOUMIEUX-GARZÓN - University of Montpellier/CNRS/Ifremer, France
Julia DORIN - University of Edinburgh, Scotland
Oscar KUIPERS - University of Groningen, The Netherlands
Katy JEANNOT - National Reference Center for Antibiotic Resistance, France
Bruno LEMAÎTRE - Lausanne Federal Polytechnical School, Switzerland
Maria Luisa MANGONI - Sapienza University of Rome, Italy
Douglas MITCHELL - University of Illinois at Urbana, USA
Csaba PAL - Biological Research Center, Hungary
Manuela RAFFATELLU - University of California at San Diego, USA
Bjorn Ole SCHRODER - Umea University, Sweden

SCIENTIFIC COMMITTEE:
Jean-Marc BERJEAUD - University of Poitiers, France
Paul COTTER - Teagasc Food Research Centre, Ireland
Olivier DUSURGET - Institut Pasteur, France
Eric OSWALD - University of Toulouse, France
Javier PIZARRO-CERDA - Institut Pasteur, France
Sylvie REBUFFAT - National Museum of Natural History, France
Konstantin SEVERINOV - Skolkovo Institute of Science & Technology, Russia
Brice SPERANDIO - Institut Pasteur, France
Michael ZASLOFF - Georgetown University School of Medicine, USA

LOCAL ORGANIZING COMMITTEE:
Olivier DUSURGET - Institut Pasteur, France
Javier PIZARRO-CERDA - Institut Pasteur, France
Yanyan LI - National Museum of Natural History, France
Sylvie REBUFFAT - National Museum of Natural History, France
Brice SPERANDIO - Institut Pasteur, France
Séverine ZIRAH - National Museum of Natural History, France

SESSIONS:
a. Discovery, biosynthesis pathways and bioengineering of novel antimicrobial peptides
b. Mechanisms of antimicrobial activities and bacterial resistance
c. Immune modulation & antimicrobial peptides
d. Interplays between antimicrobial peptides & microbiota
e. Antimicrobial peptides in the One Health context and applications
