Imaging Science

Vision4D

7-8 October 2019 **OPEN DAY**

ARIVIS VISION 4D

**Image Analysis Hub announces that the software
Vision4D from Arivis is now available at Institut Pasteur!**

Vision4D is a program for interactive Image Analysis: visualization, annotation, segmentation, and effective processing pipelines for large 3D/4D images. Those interested in learning more about it, testing it on your own data and building analysis pipelines with ARIVIS EXPERTS are welcome.

Workshop is free. The number of places is limited and sign up is required to book a place.

October 7
Francois JACOB, 28-01-01A

- **10.00 – 11.00:** Imaging solutions for Life Sciences (general seminar)
- **11.00 – 12.00:** Introduction to Vision4D: V4D user interface and how to get started with image analysis
- **12.00 – 13.00:** Lunch Break
- **13.00 – 17.00:** Virtual Reality hands on
- You can bring your own images!

October 8
Andre LWOFF, RDC 22

- **10.00 – 18.00** Image Analysis Clinic
- Book an appointment with Arivis experts to help you with your image analysis problems, or setting up your image analysis pipeline!
- You can bring your own images for testing the analysis pipelines. Please submit them before September 23rd!
- Book your slot with Delisa
