

BD FACSDiscover™ S8 Cell Sorter with BD CellView™ Image Technology and BD SpectralFX™ Technology

Get deeper insights with real-time imaging,
spectral flow cytometry

Achieve breakthrough discoveries with image-enabled cell sorting and advanced spectral flow cytometry

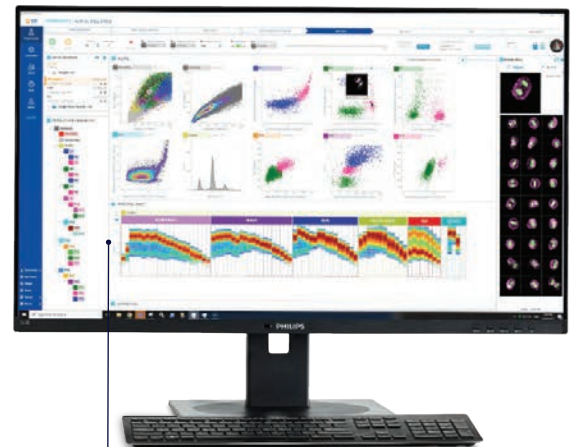

The BD FACSDiscover™ S8 Cell Sorter expands the power of cell analysis and sorting to new dimensions by combining spectral flow cytometry with real-time spatial and morphological insights—empowering scientists to address previously impossible-to-answer questions.

BD CellView™ Image Technology

Expands the power of cell analysis and sorting by combining flow cytometry data with spatial and morphological insights

Next Gen QC System

Delivers pre-set gains and reduces setup complexity

Trusted Partner
Supported by over 45 years of flow cytometry expertise

BD SpectralFX™ Technology

Expands panel size and flexibility with 78 fluorescent detectors across five lasers with algorithmically optimized bandpass filters

Obtain insights on cell populations and characteristics that can be **visually confirmed in real time** during analysis and sorting

Enhance spectral flow cytometry with **spatial and morphological insights** to interrogate and sort cell types that previously could not be identified or isolated

Index flow and cell imaging data correlates immunophenotyping, imaging and downstream assay results

Attain **high-dimensional analysis** with up to five lasers and 78 fluorescent detectors, six image detectors on the blue laser, FSC and SSC detectors

Flexible sorting: 6-way 5-mL sort, index sorting and additional format options including 96-well and 384-well plates and slides

Patented BD sorting technology features a **fixed-alignment gel-coupled cuvette** eliminating the need for operator to perform daily alignment and facilitating quick nozzle changes

Simplify your workflow with **built-in visual inspection capabilities, more flexible panel design, automated features and index sorting**

Combine **image features with flow parameters** for subset classification for statistical analysis and sorting

Real-time image-enabled sorting

See what you sort. Sort what you see.

The BD FACSDiscover™ S8 Cell Sorter leverages BD CellView™ Image Technology, a novel high-speed imaging technology that facilitates analysis and sorting through real-time integration of image and flow data.

BD CellView™ Image Technology

IMAGING DETECTORS

Image detectors with fluorescent, scatter and light loss to visualize events in real time and at high speed

3-color fluorescence imaging

NEW INSIGHTS

New insights and image-based applications help to address previously impossible-to-answer questions

Cell cycle

Cell synapse

Internalization

Label-free

Marine biology

Morphology

Phagocytosis

Plant biology

Polarization

Quality control

Tumor cell killing

Co-localization

CELL MORPHOLOGY

Explore cell morphology with internal and external spatial characteristics

SAMPLE QC

Visualize and confirm images in real time to obtain sample data for flow cytometry and downstream assays

IMAGE FEATURES

Image features combined with traditional flow parameters open the door to new dimensions in single-cell analysis

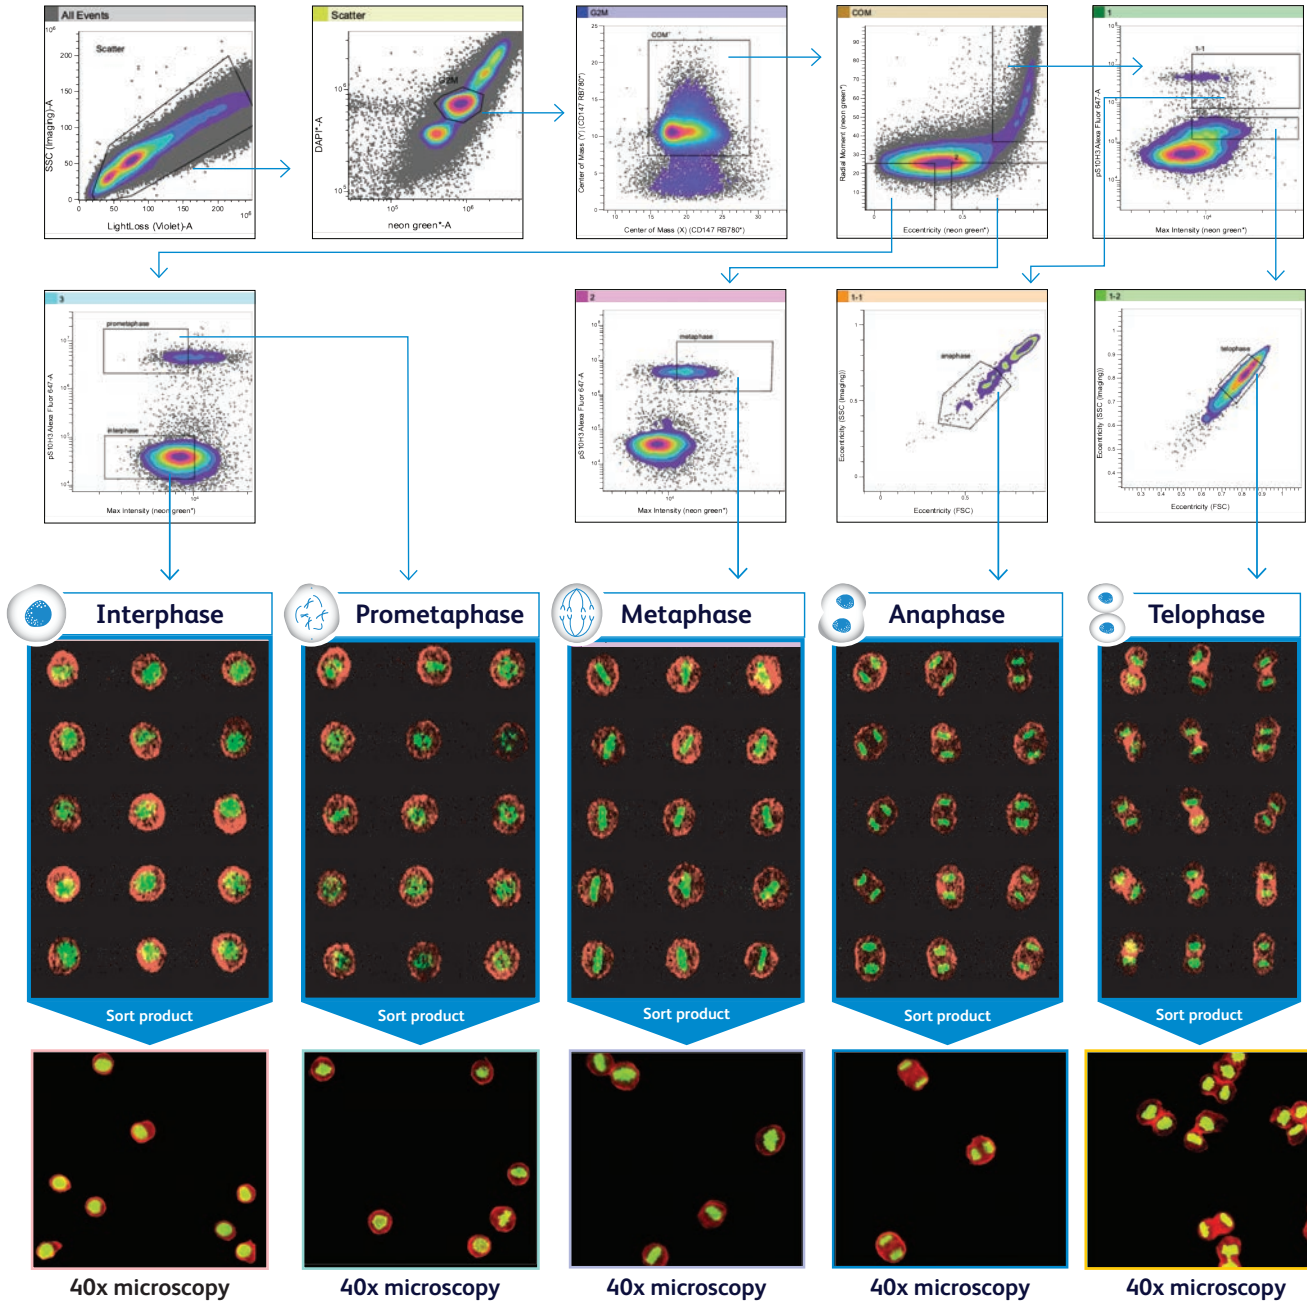

ADDITIONAL IMAGE FEATURES

- Center of mass (X)
- Center of mass (Y)
- Forward scatter (FSC)
- Light loss (blue)
- Long moment
- Short moment
- Size
- Side scatter (SSC)
- Total intensity

Cell cycle analysis

Image feature analysis can provide insight into DNA distribution and morphology to differentiate the phases of the cell cycle.

Flow cytometry parameters used

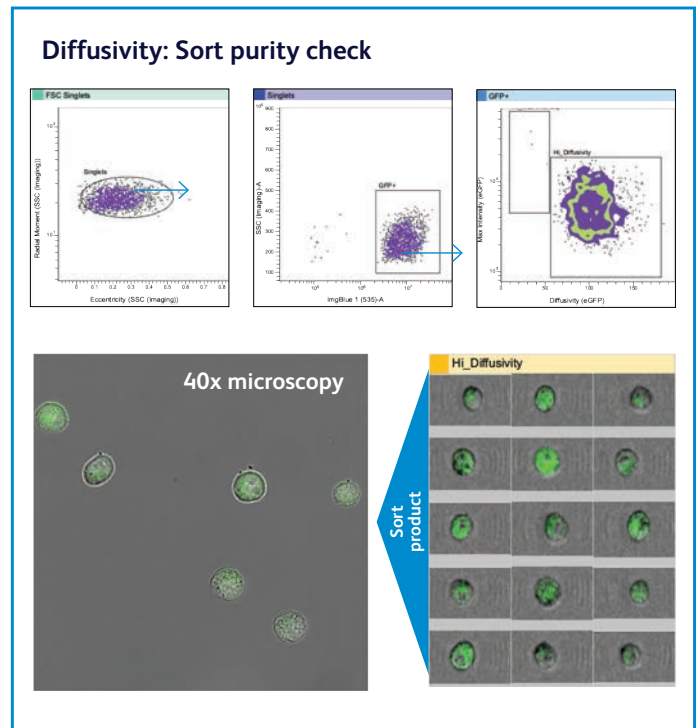

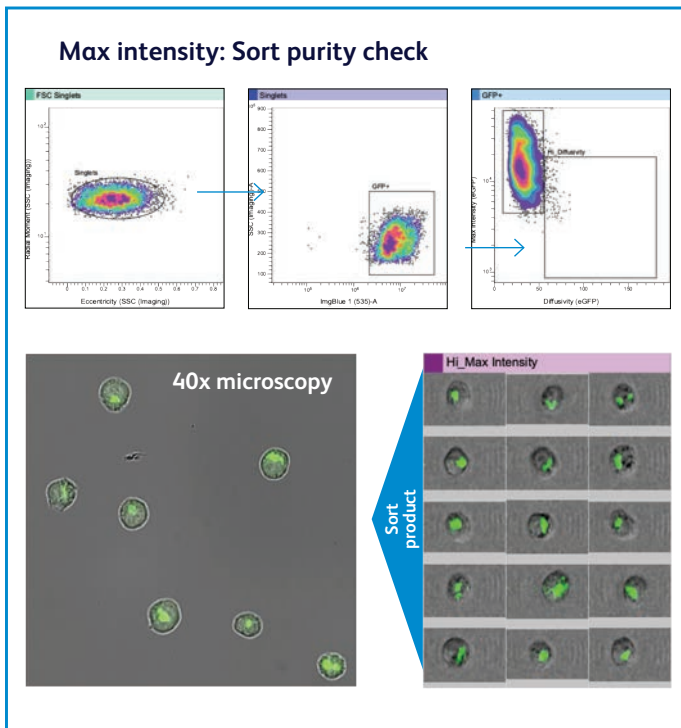

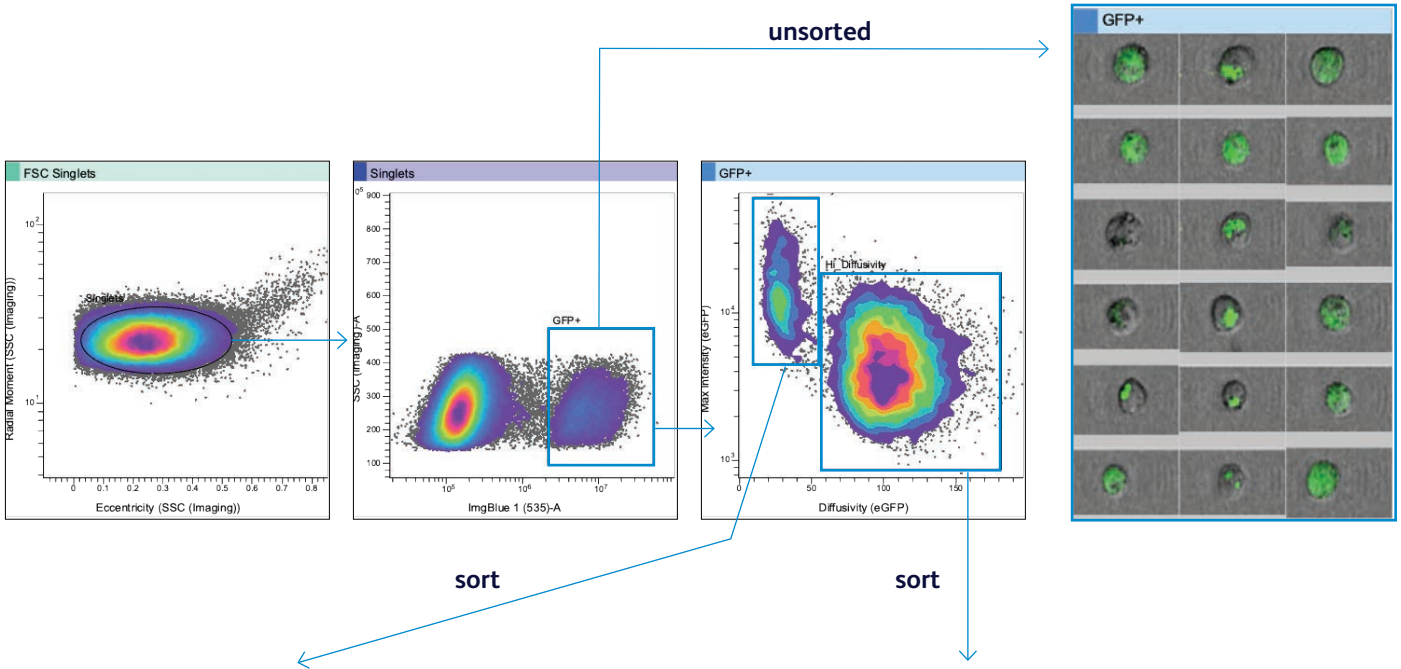

- DAPI-Area
- H2B (NeonGreen)-Area
- Alexa Fluor™ 647 (PS10H3)-Area

Image features used

- Radial Moment-H2B (NeonGreen)
- Max Intensity-H2B (NeonGreen)
- Eccentricity-H2B (NeonGreen)
- Eccentricity-FSC
- Eccentricity-SSC

Image-enabled cell sorting

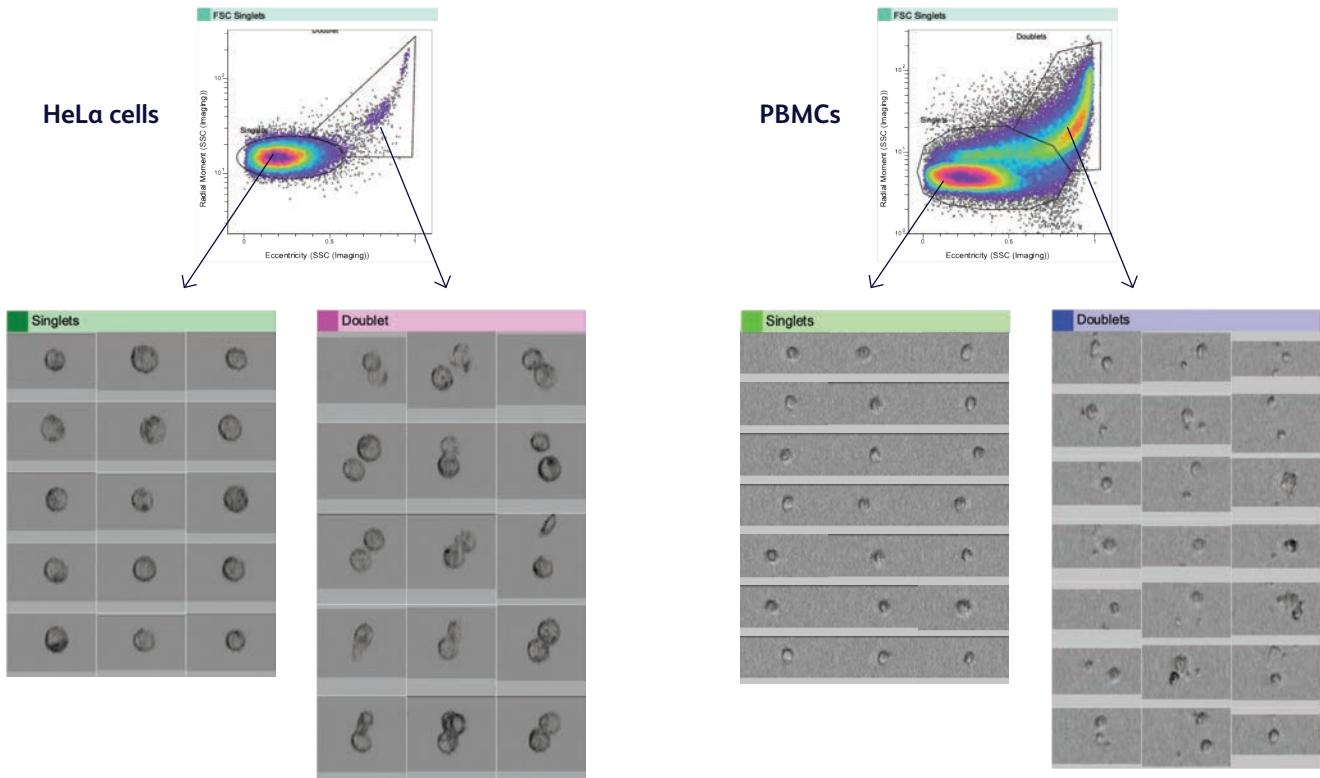

Max intensity and diffusivity image features were used to sort HeLa cells (GFP+ Golgi apparatus) treated with BD FastImmune[™] Brefeldin A (BFA) Solution which exhibited a dispersed morphology.

Enhanced sorting performance and capabilities

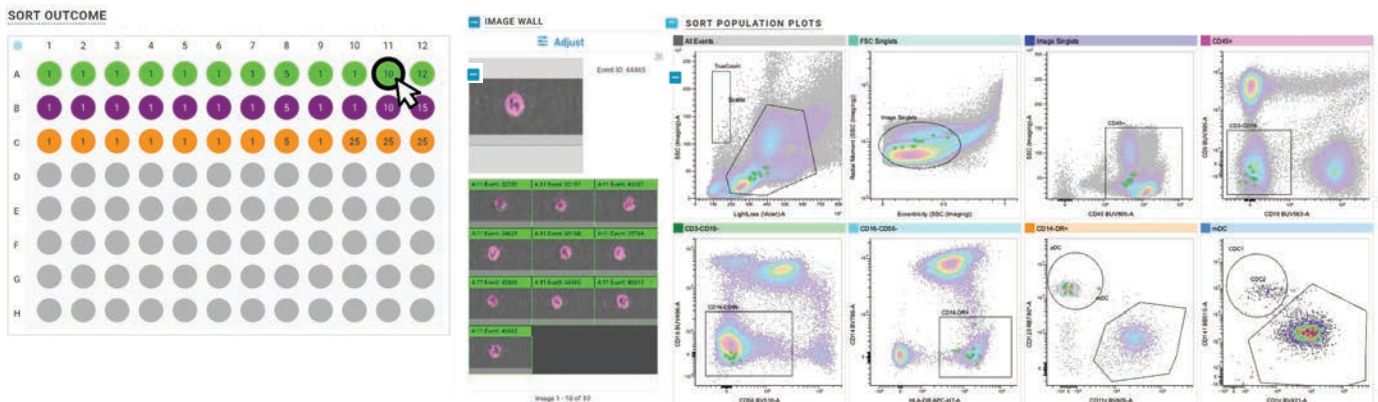

QC and analyze cells

Combine flow cytometry data with spatial and morphological insights to visually confirm cells of interest, draw more accurate gates, and identify doublets and unwanted events.

Know what you sorted

Wells or a group of wells can be selected to display corresponding images along the image wall and to locate cells on the sort population plots panel.

Explore your data with spectral flexibility using BD SpectralFX™ Technology

BD SpectralFX™ Technology combines full-spectrum optics, next gen QC and system-aware spectral unmixing that manages spread by adapting to instrument performance and sample conditions in real time.

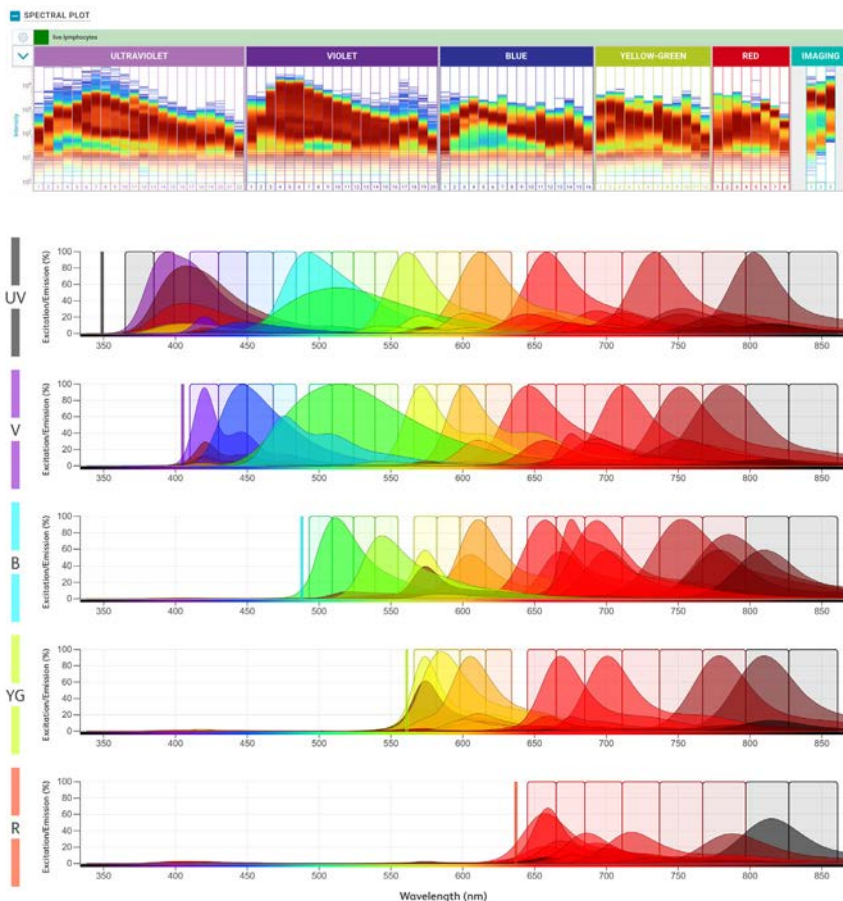

Six-way sorting of deep immunophenotyping panel

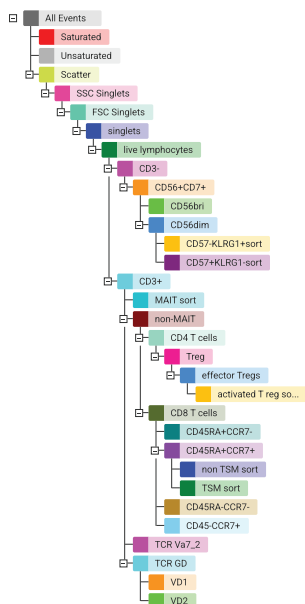

This 38-color spectral panel characterizes and sorts deep lineages of T cell and NK cell subsets.

The panel includes BD Horizon RealYellow™ and BD Horizon RealBlue™ Dye technology, engineered to work in tandem with the BD FACSDiscover™ S8 Cell Sorter for high-parameter spectral analysis to reveal biological information.

BD Technical Services is your partner for performance

BD Service teams enable you to better serve your customers and research partners. You can count on our deep knowledge and experience to help ensure your BD FACSDiscover™ S8 Cell Sorter delivers expected, timely results.

Accelerate uptime and maximize the value of your investment with robust service coverage. Service contracts optimize performance by providing regular preventive maintenance as well as remote and on-site support.

Maximum uptime

At BD, we understand the cost and consequences of unexpected downtime. Therefore, we are committed to maximizing your system uptime. Contract customers receive priority service compared to customers without a service contract. In addition, remote diagnostics help maximize system uptime by properly diagnosing instruments, reducing issue resolution time.

- Responsive on-site repair
- Remote service capability
- Preventive maintenance

Peace of mind

No more wondering how and when your instrument will be repaired. Rest assured knowing you have access to BD service professionals whenever you need them. Having a dedicated project manager during installation helps with effective implementation, accelerates value realization and provides exceptional customer experience.

- Email and chat support
- Unlimited repairs
- Local field service expertise

Predictable expense

Protect your budget from unexpected costs. Our fee that covers both corrective and maintenance-related service needs. Customers also have the option to lock-in their contract price for multiple years.

- No hidden charges
- Extends your service warranty
- Multi-year pricing available
