

AMPLIFYING FUNDS IN INFECTION BIOLOGY

Joining Forces: The EMBL-Pasteur Initiative

June 4, 2025, 12pm – 2pm, Amphitheatre Agnes Ullmann

12.00 PM

Welcome remarks

Y. Belkaid

12.05 PM

Presentation of projects of the 1st call of the 'Amplifying Funds in Infection Biology' scheme.

L. MANCIO-SILVA (WITH M. BERNABEU, EMBL BARCELONA)

Bioengineering vascularized human microlivers for malaria infection

P. GUARDADO-CALVO (WITH J.A. MARQUEZ, EMBL GRENOBLE)

Exploring new therapeutic opportunities against mpox virus

D. BIKARD (WITH A. TYPAS, EMBL HEIDELBERG; T. STROWIG, HZI & A. MATEUS, MIMS)

Personalizing gut decolonization of MDR Enterobacteria through a systems biology approach

M. HAMON (WITH J. ZAUGG, EMBL HEIDELBERG; M. BOULARD, EMBL ROMA)

Towards a mechanistic understanding of NK cell memory

J. ENNINGA (WITH J. MAHAMID, EMBL HEIDELBERG)

Exploring the role of translation landscapes in Salmonella pathogenicity and antibiotic resistance during the colonization of diverse host intracellular niches

1.20 PM

Overview of the EMBL-Institut Pasteur Initiative and announcement of the 2nd call of the 'Amplifying Funds in Infection Biology' scheme.

AFTERWARDS

Pizza @ The 25
